Education

- **Bachelor of Science in Computer Science & Engineering**
University of Scholars, [Banani, Dhaka]
Expected Graduation: October 2027

Skills

Annotation & Data Handling

- Tagging and categorizing text, images, and documents
- Proofreading and quality checking for consistency
- Data collection and dataset preparation

Soft Skills

- Strong attention to detail & accuracy
- Ability to follow precise instructions
- Independent, reliable, and deadline-driven

Technical Skills

- **Programming Language:** C, C++, Python
- **Website Development:** HTML5, CSS3, Bootstrap, Tailwind, Flask, JavaScript
- **Database:** MongoDB, PostgreSQL | **MS Office:** Word, Excel, PowerPoint
- **Version Control:** Git, GitHub | **Others:** JSON, API Integration

Work Experience (Freelance Contract)

- **AI Trainer - Outlier (Part-time)** [Oct 2024 - Dec 2024]
 - Summarized coding problems in a human-readable format with clean and efficient solutions
 - Explained code logic and compared different solution approaches and evaluated the quality of AI-generated code with human-readable feedback
- **Data Annotator - RWS (Remote)** [Sep 2025 - Present]
 - Pairwise comparisons, object tagging, audio/video/image labeling, and content quality assessment. Performing detailed analysis to ensure the delivery of high-quality training data for machine learning and AI models.
 - Following strict guidelines to maintain accuracy, consistency, and compliance, along with using annotation tools and handling multimedia data for large-scale AI projects.

Certifications & Achievements

- **Micro1 - Software Developer**
- **Microsoft Learn - AI for Beginners**
- **IUPC (Intra University Programming Contest)** – *Champion from Senior division*
- **Robofest 1.0** - Champion of Drone Competition
